

Dear Families,

Author Sara Levine will be visiting on _____.

In anticipation of her visit, we are giving students the opportunity to purchase copies of her books. These books will be autographed by the author and delivered to the classrooms! Here's a link to her website for more information: <http://www.saralevinebooks.com/>

If you would like to order a copy of one of the following books, please fill out the form and return it to the school office with cash or a check by _____.

Book Cover	Book	Price each	QTY	TOTAL
	<p>This entertaining picture book will keep readers guessing as they learn about how our skeletons are like--and unlike--those of other animals.</p>	Hardcover \$ Paperback \$		
	<p>What kind of bird has a beak like a straw? A hummingbird! This playful picture book will keep readers guessing as they discover how the beaks of different birds resemble tools.</p>	Hardcover \$		
	<p>Plants use the colors of their flowers to communicate with animals. But why animals? Because they help plants make seeds by moving pollen from one flower to another. Learn the secrets of flower talk from a narrator with an inside scoop!</p>	Hardcover \$		
	<p><i>The Animals Would Not Sleep:</i> It is almost bedtime, but first young Marco must put away his collection of stuffed animal toys. As a budding scientist Marco tries different ways of sorting the animals, but the animals have their own ideas. Marco scrambles to make everyone happy and make it to bed before his mother comes to tuck him in.</p>	Hardcover \$ Paperback \$		
	<p>IN SPANISH! ¡Ahora en edición bilingüe inglés-español! Es hora de que Marco y sus animales de peluche se vayan a dormir, pero los animales tienen otro plan.</p>	Hardcover \$ Paperback \$		

	<p>What animal would you be if a few of your teeth grew so long that they stuck out of your mouth even when it was closed? What would you be if your top canine teeth grew almost all the way down to your feet? This picture book will keep you guessing as you read about how human teeth are like—and unlike—those of other animals.</p>	<p>Hardcover Library Binding \$</p>		
	<p>What kind of animal would you be if you had eight eyes? Or if your pupils were the shape of the letter W? Keep an eye out for weird and surprising facts in this playful picture book, which brings together comparative anatomy with a guessing game format. See how your animal eyes are like—and unlike—those of starfish, spiders, goats, cuttlefish, owls, and slugs.</p>	<p>Hardcover Library Binding \$</p>		
	<p>What dinosaur would you be if you had a bony ridge rising from the back of your skull and three horns poking up from the front?</p> <p>Answer: a triceratops!</p> <p>This picture book will keep you guessing as you find out how human skeletons are like—and unlike—those of dinosaurs!</p>	<p>Hardcover Library Binding \$</p>		
	<p>Have you ever seen a germ up close? Really, really close? Award-winning science writer Sara Levine introduces readers to a variety of viruses, bacteria, protozoa, and fungi that can make people sick—including SARS-CoV-2, E. coli, and ringworm. Micrographs and illustrations show extremely close-up views of the germs that are at once incredible and a little gross.</p>	<p>Hardcover Library Binding \$</p>
